

April 2006

Radstons OP office plus

Sorry to tell you what you already know... Tax day is today. But Radstons is going to help you get through it. So here are two essential products to help you in your last minute tax return preparation.

PAPER MATE

Dryline Grip® Correction Tape. Covers any type of error. Nonrefillable, gripped ergonomic dispenser precisely rolls film directly onto paper without a mess. Write or type over film immediately after application. Smooth surface does not leave copier shadow. More convenient than correction tapes.

Great for correcting lines of text. Size: 1/6"x23'. White. Item number PAP06604. (You can get more free correction tape. Just look at the back of the sample pack.)

And Aleve® ...No explanation necessary. We only hope you don't need it tonight. Item number LIL00075.
